

NEXGEN RED 45000

Your reliable Red light
Therapy Solution Supplier

Powerful RED Light system that combines 5 optimal therapeutic wavelengths to generate maximum results.

Wavelength	RED LIGHT		NEAR INFRARED LIGHT(NIR)		
	633mm	660mm	810mm	850mm	940mm
Weight Loss		✓	✓	✓	✓
Fat Burning		✓	✓	✓	✓
Cellulite Reduction		✓	✓	✓	✓
Metabolism		✓	✓	✓	✓
Anti-aging	✓	✓	✓	✓	✓
Acne	✓	✓	✓	✓	✓
Scars	✓	✓	✓	✓

Post Workout Recovery		✓	✓	✓	✓
Mental Stamina		✓	✓	✓	✓
Cognitive Performance		✓	✓	✓	

What Red Light Therapy Can Do?

Reduce Inflammation

Near-infrared (NIR) light reduces overall inflammation in the body by decreasing the presence of inflammatory markers. This reduction can help ease the symptoms associated with joint pain, sore muscles, autoimmune diseases, arthritis, traumatic brain injuries, and spinal cord injuries.

Reduce Recovery Time

For high-performance athletes (and those who train like them) LED light therapy can help accelerate muscle repair following fatigue and injury. Mitochondria within cells are particularly responsive to LED light therapy, and muscle cells are exceptionally rich in mitochondria. LED light therapy may also stimulate stem cells, further assisting in muscle recovery.

Stimulate Hair Growth

Alopecia, or hair loss, is a common disorder affecting 50% of males over the age of 40 and 75% of females over 65. Studies have shown that LED light therapy can stimulate hair growth. Red light wavelengths are believed to stimulate epidermal stem cells in the hair follicle, shifting the follicle into the anagen (active growth) stage.

Increase Fertility

Around the age of 30, male testosterone levels naturally start to decrease. Men hope to achieve a natural boost to their sex drives, sexual satisfaction, fertility, and physical performance can reap benefits from LED light therapy. Red and near-infrared wavelengths can stimulate photoreceptor proteins in the testes causing higher testosterone production. Other studies have theorized that low-level light therapy may affect the pineal gland in the brain, which bears a significant impact on reproduction.

Improve Circulation

In many studies, LED light therapy has been clinically proven to increase the diameter of blood vessels and to improve circulation. What's more, LED light therapy also protects red blood cells against oxidative stress and limits platelet loss during surgical procedures.

Promote Healthy Cellular Function

The most significant benefit of LED light therapy is the effect it has on the body's cells. One of the most critical outcomes of LED light therapy on cellular function is the stimulation of collagen production. Collagen strengthens hair, is responsible for the health of connective tissue, and provides our skin with firmness and elasticity.

Improve Skin Health

LED light therapy can dramatically transform the skin. Red light wavelengths in particular target the mitochondrial chromophores within skin cells, generating production of collagen proteins. Collagen stimulation yields more holistic and enduring benefits than simply resurfacing the outer layers of the skin. Stem cells may also be activated, increasing tissue repair. The result is accelerated healing and wound repair, improved appearance in hypertrophic scars, a reduction in fine lines and wrinkles, and improved skin texture.

Reduce Pain

In a clinical study, neuropathic pain caused by a spinal cord injury was dramatically reduced by the application of red light treatment. Near-infrared light wavelengths reduce overall pain by easing joint stiffness and soreness, diminishing inflammation, easing muscle spasms and enhancing blood flow.

SPECIFICATIONS

Size

Weight: 350kg
Dimension: L2300* W1260* H1134mm
90"L x 50"W x 46"H

Power consumption

Power: 6000W
Pulsing Frequency: 1-10,000 Hz
Irradiance: 129mw/cm2

LEDs

43,200(tripartite spectral diodes)
Pulse option and variable Hz
5 Wavelength are including:
633nm Red Light
660nm Red Light
810nm NIR Red Light
850nm NIR Red Light
940nm NIR Red Light

Programs

5 pre-set modes for quick and easy operation as follows:
Muscle Recovery
Pain Relief
Weight Loss
Boost CollagenIntelligent Mode
Accept Self-setting Program Under Manual Mode

Wireless Remote Pad control

Multi-units connection of maximum 6 units.

Languages

English, German, French, Italian, Spanish

Electrical Requirements

220-380V,50/60Hz
35A dedicated circuit breaker

The most advanced and powerful Red Light Therapy System Enhance your business in variety of usage.

Integrative Wellness Centers

Resort & Day Spas

Sports Recovery Centers

Medical Spas & Aesthetics

Pain Management Centers

GYM & Fitness Centers
