

The CE800+ was specifically engineered for the commercial environment, from its heavy-duty steel frame to its premium console features. Its design focuses on convenience, comfort, reliability, and aesthetic appeal. Facility owners will have the peace-of-mind knowing they have a dependable machine while users experience a fluid total-body workout.

This unit uses a generator to power the console. Therefore, there is no need for an electrical hookup. Dual track with shielded concave roller wheel system for superior stability and durability.

FEATURES:

- Smooth, quiet 508mm stride, which is the optimal distance for the average user.
- Generator powered console means there is no need for electricity.
- Dual rollers on each pedal arm for a sturdier base.
- 2 degrees of inversion at each foot pedal places the user in an anatomically correct position.

CE800+
